

On June 1st, the number of holds per person will be changing.

Since InfoSoup began, we've seen the number of holds increase by over 200%.

Unfortunately, budgets have not kept pace and many libraries are struggling to fill those holds with the same or fewer staff.

Because of this, the InfoSoup libraries have decided to set a limit of 15 holds per person, starting Monday, June 1st.

Remember:

- You can still place holds on almost everything in InfoSoup.
- If you have more than 15 holds on June 1st, those holds will still be filled.
- Once you have less than 15 holds on your list, you can place new holds.

Library staff can also help you find materials for check out right now, or help you keep track of items for later, using the *My Lists* feature in InfoSoup.
