Crossover lending and borrowing occurs when a system library lends (circulates) items directly to a resident of another system community that has a library.

*Some NFLS libraries were online with OWLSnet for only part of the year.

** Brown County loaned 35,454 items to residents of Kewaunee County and 55,609 items to residents of Oconto County. However, no breakdown is available on the number of items loaned to residents of the specific communities with libraries.
